

APPENDIX D

ENCOUNTER 2001 TEACHERS GUIDE

The Encounter 2001 Teachers Guide, co-authored by this student, is designed for use in primary and secondary education. Page nine of the Teachers Guide features an example of characters from the Encounter 2001 mathematical alphabet used in the company's interstellar transmissions. Pages twenty three through twenty six compare and contrast the 1974 Arecibo interstellar transmission with the Encounter 2001 transmissions, and provide a simple illustration of how pictograms are created.
